MARKET UPDATE

AMERICAN BOATING MARKET SHOWING STRONG GROWTH

Exhibit 99.1

MARINEMAX REPORTS RECORD FOURTH QUARTER AND FISCAL YEAR RESULTS

CLEARWATER, FL, October 26, 2021 – MarineMax, Inc. (NYSE: HZO), the world’s largest recreational boat and yacht retailer, today announced record results for its fourth quarter and full year ended September 30, 2021.

W. Brett McGill, Chief Executive Officer and President stated, “The foundational shift of consumer’s renewed desire for the boating lifestyle, continues to build, as both demand and backlog remain very robust.”

SYBAss Economic Report 2021

Until the economic crisis of 2008-2009, newly launched superyachts - based on volume - were bought by a majority of North American and Western European owners. The aftermath of this economic crisis saw an increase in owners from Eastern Europe and The Middle East & Africa, at the expense of the aforementioned regions. For the last five years, the share of Western European owners based on volume of newly launched superyachts was around 19% and based on the order book data this is expected to remain relatively stable. North American owners had a 23% share over the last five years, but their share is expected to grow to around 29% for the coming years.

This would mean that North America is taking back the lead as primary owner region for newly launched superyachts based on volume. In part this aligns well with the relative high growth in the UHNWI population for that region, but Asia Pacific has an even stronger growth for that demographic and has a lower share of the order book data.

OneWater Marine Inc. Announces Fiscal Fourth Quarter and Full-Year 2021 Results

November 18, 2021

“The OneWater team delivered record revenue and earnings in fiscal year 2021 despite a challenging supply chain environment that limited production at OEMs. In fact, customer demand has continued at historic levels with no signs of slowing, which we expect will support further growth well into the coming year,” commented Austin Singleton, Chief Executive Officer at OneWater.

MARKET UPDATE

HIGH POTENTIAL FOR THE LUXURY YACHTING SECTOR

GROWING TARGET CUSTOMERS AND INCREASING WEALTH IN KEY GEOGRAPHIES, TOGETHER WITH A PENETRATION RATE OF LUXURY YACHTING OF ~3%, LEAVE ROOM FOR FURTHER MARKET EXPANSION, FAVOURED BY THE WILLINGNESS OF CUSTOMERS TO ENJOY INTIMATE AND SAFE STAYS

Luxury Goods

Luxury demand to remain solid

We believe that the fundamentals for luxury sector remain very solid going into 2022. There is strong global demand for the product, from a younger & more geographically balanced consumer, while household savings and wealth continued to be accumulated through 2021 and online will be an incremental driver of demand.

Luxury set for another year of double digit revenue growth

We expect Luxury Goods revenue will grow 35% in 2021, which implies +14% vs 2019. In 3Q21 (last reported period), the sector 3-year revenue CAGR was 7%, inline with it's through the cycle growth. Assuming the 3-year CAGR continues, would implying revenues in 2022 will be up 12%. Despite already being 4% ahead of consensus we think our estimate still looks conservative given pricing power in 2022 is stronger than 2019.

The information contained in this presentation, which has been prepared by Sanlorenzo S.p.A. (the “Company”) and its consolidated subsidiaries (together, the “Group”) and it is under the responsibility of the Company, does not constitute or form part of any offer to sell or issue or invitation to purchase or subscribe for, or any solicitation of any offer to purchase or subscribe for, any securities of the Company, nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. The information and opinions contained in this document are provided as at the date of the presentation and are subject to change. Neither the Company nor the Group are under any obligation to update or keep current the information contained in this presentation.

The director in charge of preparing the corporate accounting documents, Attilio Bruzzese, declares that pursuant to and for the purposes of article 154-bis, paragraph 2 of Italian Legislative Decree no. 58 of 1998, the accounting information contained in this document corresponds to company documents, ledgers and accounting records.

Forward-Looking Statements: this document may include projections and other “forward-looking” statements within the meaning of applicable securities laws. In particular, all statements that address expectations or projections about the future, including statements about operating performance, market position, industry trends, general economic conditions, expected expenditures, cost-savings, synergies and financial results, are forward-looking statements. Consequently, any statements contained herein that are not statements of historical fact are forward-looking statements.

Forward-looking statements are based on assumptions and current expectations and involve a number of known and unknown risks, uncertainties and other factors that could cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Accordingly, actual events or results or actual performance of the Company or the Group may differ significantly, positively or negatively, from those reflected or contemplated in such forward-looking statements made herein. The Group expressly disclaims any duty, undertaking or obligation to update publicly or release any revisions to any of the information, opinions or forward looking statements contained in this document to reflect any events or circumstances occurring after the date of the presentation of this document. No representation or warranty is made as to the achievement or reasonableness of, and no reliance should be placed on, such forward-looking statements.

Any reference to past performance or trends or activities of the Company shall not be taken as a representation or indication that such performance, trend or activity will continue in the future.

This presentation contains alternative performance indicators that are not recognized by IFRS. Different companies and analysts may calculate these non-IFRS measures differently, so making comparisons among companies on this basis should be done very carefully. These non-IFRS measures have limitations as analytical tools, are not measures of performance or financial condition under IFRS and should not be considered in isolation or construed as substitutes for operating profit or net profit as an indicator of our operations in accordance with IFRS.
